SOFTWARE ENGINEER

Software Engineer proficient in Python with Flask and JavaScript, specializing in full-stack development. Adept at leading technical projects and contributing strong team-building and project management skills, I have successfully implemented innovative solutions, such as an engaging music shuffling app (Audio Abyss) and a dynamic fantasy football platform (Backyard Fantasy Football), showcasing my commitment to creating seamless and immersive user experiences.

TECHNICAL SKILLS

I currently specialize in Python with Flask for back-end development, SQL for database management, and possess strong skills in front-end development using JavaScript and React.

TECHNICAL PROJECTS

Audio Abyss - <https://github.com/zachtalmdage/audio-abyss> |

An innovative music shuffling application allowing users to engage with curated song recommendations.

- Managed efficient data loading and fetching from the server, ensuring seamless retrieval and display of song information on the user interface.
- Implemented the song shuffling logic, enhancing the application's dynamic and engaging user experience.

Backyard Fantasy Football - <https://github.com/isaacsong1/Backyard-Fantasy-Football> |

A web application offering a fantasy football experience with characters from the 2002 game, *Backyard Fantasy*.

- Implemented sign-up and login functionality, enhancing user experience and ensuring secure access to the platform.
- Designed and created a dynamic leaderboard functionality, providing users with real-time updates on their standings and enhancing overall engagement.

Flatbuster Video - <https://github.com/wesmith3/Flatbuster-Video> |

A feature-rich movie rental application that provides users with a complete and immersive experience, allowing them to seamlessly rent, explore, and enjoy a diverse collection of movies.

- Took charge of writing the API and routes, enabling seamless communication between the front-end and back-end.
- Crafted detailed descriptions of the relationships between tables in the database, providing clarity and structure for efficient data management.

EXPERIENCE

Local Myth Pizza

Cook/Pizzaiolo

Chelan, WA
08/2021 - 08/2023

- Maintained an optimized work environment that contributed to consistent daily record sales.
- Provided exceptional customer service by assisting the front end, taking orders, and addressing customer inquiries, contributing to increased customer satisfaction.

Best Buy

Autotech Installer

Carson City, NV
10/2017 - 08/2021

- Served as the Autotech Bay Manager, overseeing all aspects of Autotech installation and sales operations, ensuring a well-organized and efficient workflow.
- Demonstrated leadership by training and managing a team of new installers, fostering a collaborative work environment, and improving installation efficiency.
- Initiated and implemented a new sales system, streamlining processes and enhancing communication within the sales staff, allowing for more time to be dedicated to hands-on vehicle installations.
